**SPECIALISTS IN VOLVO & DAEWOO CAR PARTS**

Bromley, a company dealing in new Volvo and Daewoo parts underwent a change in its management. The new management recently reintroduced itself in the market with a fresh identity created by A&Z Design Consultants – depicting a change in the internal structure of the company.

The identity needed to be fresh and a unique approach in its particular sector to reflect the new approach and working pattern of the company. The identity demanded to be suggestive and competitive.
